Donegan Family Bio and Hunt Family Bio are the Answers HSCA Sought

https://www.pbs.org/newshour/politics/remembering-howard-baker-whose-famous-question-embodied-watergate-hearings

WASHINGTON — Howard Baker's question sliced to the core of Watergate: "What did the president know and when did he know it?"

Repeated over and again in the senator's mild Tennessee drawl, those words guided Americans through the tangle of Watergate characters and charges playing daily on TV to focus squarely on Richard Nixon and his role in the cover-up.

Baker's famous question has been dusted off for potential White House scandals big and small ever since.

Baker, who later became Senate majority leader, chief of staff to President Ronald Reagan and one of the GOP's elder statesmen, died Thursday at his Tennessee home of complications from a stroke suffered days earlier, according to an email distributed at the law firm where Baker was senior counsel. He was 88.

Baker emerged as an unlikely star of the Watergate hearings in the summer of 1973.

When chosen as vice chairman — and therefore leading Republican — of the Senate special committee, he was a Nixon ally who thought the allegations couldn't possibly be true. Democrats feared he would serve as the White House's "mole" in the investigation of the break-in at Democratic headquarters and other crimes perpetrated in service to Nixon's re-election.

"I believed that it was a political ploy of the Democrats, that it would come to nothing," Baker told The Associated Press in 1992. "But a few weeks into that, it began to dawn on me that there was more to it than I thought, and more to it than I liked."

He said Watergate became "the greatest disillusionment" of his political career.

Ed Donegan and Jen Moore asserions

It is not a very common occurence for three Presidents to be in Washington on the same day, and it is an extremely unusual event for three Presidents – current, former, or future – to be in the same city unless a political convention or a Presidential funeral is underway. But on the morning of November 22, 1963, three Presidents were in the Dallas-Fort Worth metropolitan area, within thirty miles of each other.

In Fort Worth that day, John F. Kennedy and Lyndon B. Johnson awoke in the Hotel Texas and prepared to board the plane that would take him on the brief flight to Love Field in Dallas, and from there to the motorcade that would enter Dealey Plaza just before 12:30 Central Standard Time.

And in Dallas that morning, Richard Nixon awoke in the Baker Hotel. There was a policeman stationed in the hallway outside his door, but the officer was there not so much to protect the former Vice President as to deter jewel thieves or autograph seekers from bothering movie star Joan Crawford who was a few doors down from RN.

Both the Hollywood legend and the future President were in town for the same reason – to attend the annual convention of the American Bottlers of Carbonated Beverages. [Its members are bottling companies and other beverage industry firms, including Bulldog Americas Corporation, several Coca-Cola and Pepsi-Cola bottlers, Pepsi-Americas Inc, and Royal Crown Bottling Corporation. The organization was founded in 1919, and originally named the American Bottlers of Carbonated Beverages.[1] In 1966, it renamed itself the National Soft Drink Association.] Both were there on behalf of the Pepsi-Cola corporation – Miss Crawford as a member of its board of directors (she was the widow of its chairman), and RN in his capacity as an attorney working on Pepsi's behalf.

After meeting various bottling-plant executives the previous day, RN had spoken to reporters that night, delivering a vigorous critique of the Kennedy White House's policies in his capacity as Republican elder statesman. https://www.nixonfoundation.org/2013/11/richard-nixon-november-22-1963

What Ed Donegan asserts is that his (Nixon's) 1958 Indonesia plan that involved planning Barrack Obama Jr. as an Agent-Of-Influence in Indonesia, or maybe Kenya or the USA or Saudi Arabia IF he were planted with a famous family. That would mean a falsified background and hidden identity. I and others assert we are in an era now of discovering many covert geneological connections of famous people who seem by facial recognition almost exact doubles for others, something that even geneology companies recogbnize (facial structures) as useful too just like immuninological profiles are used.

In the morning, RN proceeded to Love Field, and boarded a plane which departed a little more than an hour before Kennedy and Johnson's arrival.

It is this theory my Doneganfamily life story supports

Glorian Donegan was a bastard child of perhaps Prince Edward of Wales. She showed FOXP3 symptoms as did Prince Alber of York. The mother was Maria Kutschera in 1926 who also showed Borderline Personality Disorder. It was decided in the 1950's she would be a possibel source of "hidden identity" children who would be backed covertly to succeed in politics around the world. I am one of children and as race horses go I tended towards the center of the field and the trough rather than all than running and jumping. I think though many others including Barrack Obama Jr. may have been IVF impregnations with her DNA being tested from generation to generation. I think Kennedy opposed this during his presidency and before that as US Senator. He did not like the British at all nor their methods.

I think it quite possible for Robert F. Kennedy they were planning a campaing of the Unioin Man and how the USA and Packard Motors and Radar won WWII, not Richard Nixon.

Shadow government conspiracy

One conspiracy theory suggests that a secret or shadow government including wealthy industrialists and right-wing politicians ordered the assassination of Kennedy.[367] Peter Dale Scott has indicated that Kennedy's death allowed for policy reversals desired by the secret government to escalate the United States' military involvement in Vietnam.[368]

In *JFK vs Allen Dulles*, author Greg Poulgrain describes an attempt by America's Rockefeller family to gain control over West Irian gold mines in Indonesia, in particular the substantially gold-rich Grasberg mine. Poulgrain speculates that President Kennedy's close relationship with Indonesian President Sukarno and a planned 1964 US–Indonesian summit could have led to Indonesia granting independence

to West Irian, making it difficult for Rockefeller-owned Freeport Sulphur to gain control of the mines.[369]

Poulgrain contends that Allen Dulles, who had ties to the Rockefellers through his employment at Sullivan & Cromwell, organized the assassination on the Rockefellers' behalf to eliminate Kennedy's interference by easing Lee Harvey Oswald's return to the United States and getting him a job at the Texas School Book Depository, before instigating a coup in Indonesia with the cooperation of military officer Suharto to discredit the Communist Party of Indonesia. The subsequent nationwide massacres and Suharto's assumption of the presidency, Poulgrain purports, led to Freeport securing the mines with the approval of Suharto's pro-Western government.[369]

In the biographical book, *The Devil's Chessboard: Allen Dulles, the CIA, and the Rise of America's Secret Government*, David Talbot examines Dulles' career.[370] Talbot also posits that Allen Dulles orchestrated the assassination of President Kennedy at the behest of corporate leaders, though on the basis of their perceiving Kennedy as a threat to national security instead of to primarily secure any specific business interests. According to Talbot, Dulles lobbied the new president, Lyndon Johnson, to have himself appointed to the Warren Commission. Talbot says that Allen Dulles also arranged to make Lee Harvey Oswald the person responsible for the assassination.[370] The book asserts that the conspirators behind John Kennedy's death also murdered his brother Robert Kennedy, who the conspirators perceived to be "a wild card, an uncontrollable threat" that would reveal the plot.[370]

Military-industrial complex

In the farewell speech given by U.S. President Dwight D. Eisenhower before he left office on January 17, 1961, warned the nation about the power of the military establishment and the arms industry. "In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists, and will persist."[371] Some conspiracy theorists have argued that Kennedy planned to end the involvement of the United States in Vietnam, and was therefore targeted by those who had an interest in sustained military conflict, including the Pentagon and defense contractors.[372]

Former United States Senator Ralph Yarborough in 1991 stated: "Had Kennedy lived, I think we would have had no Vietnam War, with all of its traumatic and divisive influences in America. I think we would have escaped that."[373] According to author James W. Douglass, Kennedy was assassinated because he was turning away from the Cold War and seeking a negotiated peace with the Soviet Union.[374] Douglass argued that this "was not the kind of leadership the CIA, the Joint Chiefs of Staff, and the military-industrial complex wanted in the White House."[375][376] Oliver Stone's film, *JFK*, explored the possibility that Kennedy was killed by a conspiracy involving the military-industrial complex.[377] L. Fletcher Prouty, Chief of Special Operations for the Joint Chiefs of Staff under Kennedy, and the person who inspired the character "Mr. X" in Stone's film, wrote that Kennedy's assassination was actually a coup d'état.[378]

The *United States House of Representatives Select Committee on Assassinations (HSCA)* was established in 1976 to investigate the assassinations of John F. Kennedy and Martin Luther King Jr. in 1963 and 1968, respectively. It was in a time of reform as CIA connected Richard Nixon who ran the CIA through the National Security Council as Vice President under President Eisenhower was losing party to Democrat Party reformers and Jimmy Cater won the White House with a reformist approach.

This is the textual version and the full version with image and video resources should be available at this link. https://archive.org/download/genoracketeering_202001/DoneganFamilyBioAndHuntFamilyBioAreTheAnswersHSCASought.zip

I have called myself a 2nd generation atomic testing victim and sought help from Atomi Veterans groups among others.

I come from a family of two historically connected (all lives are historical, the events they are trapped in may or may not be noticed and they may or may not be noticed) and the history is with Joseph Kennedy Sr., his and Rose Fitzpatrick's children, their deaths including JFK and RFK, other deaths including Sonny Bono, and the McMartin preschools scandal some (Ted Gunderson) and others say were CIA connected, and George H.W. Bush connected like the Conspiracy of Silence case Ted Gunderson and CIA operatives William Colby and John DeCamp wrote about.

I don't know my genealogy exactly because most of it was oral history and often at times hush-hush and certainly oral history hard to find online. Per my father's story his father was an Irish immigrant accountant who could not practice accounting inside the USA and thus worked a a Hershey Chocolate factory. He (my father James Paul Donegan) fits the the identity of a James Paul Donegan Jr son of James Paul Donegan Sr in some ways though the chronology does not match up well. James Paul Donegan Sr. was an accountant and there is a lot of overlap. Confusing the situation is my father said I was named after my grandfather Edward and at various times based on his and my mothers side family members this might have been a Von Trapp (Maria Kutschera in 1926) dalliance with Edward of Wales or Albert of York and thus following the Kings Speech in 1925 the next year were created bastard children of Windsors who came under study including myself at McMartin Preschool in 1962. My mother showed the London KE family FOXP2 symptoms as I did including swallowing problems due to dry upper GI and like Albert of York an emotional component to the symptoms group for that gene.

John F. Kennedy Born: May 29, 1917, Brookline, MA Assassinated: November 22, 1963, Parkland Health, Dallas, TX. Robert F Kennedy Born: November 20, 1925, Brookline, MA Assassinated: June 6, 1968, PIH Health Good Samaritan Hospital, Los Angeles, CA

United Air Lines Flight 553 was a scheduled flight from Washington National Airport to Omaha, Nebraska, via Chicago Midway International Airport. On December 8, 1972, the Boeing 737-222 serving the flight, City of Lincoln, registration N9031U, crashed while approaching Midway Airport.

The plane crashed into a residential neighborhood, destroying five houses; there was an intense ground fire. Forty-three of the 61 aboard the aircraft and two on the ground were killed. Among the passengers killed were Illinois congressman George W. Collins, CBS News correspondent Michele Clar and Dorothy Hunt, the wife of Watergate conspirator E. Howard Hunt.

According to posthumously published confessions and newly available CIA family statements and newly released CIA documents the crash killing E. Howard Hunt's wife covered up the Nixon Ford Bush Rockefeller Averell Harriman CIA operations that led to JFK being assassinated and the Watergate break-in attempt by Nixon operatives to suppress at least for a few decades the truth of the JFK, RFK, and Martin Luther King and Malcolm X (and also) Marilyn Monroe and Dorothy Kilgallen assassinations conducted by the oil industry and royalty-obsessed CIA.

The events of this conspiracy theory span Watergate, UAL flight 553, TWA Flight 800, the Bush and LBJ families oil connections and Murder Inc. used in the assassination of JFK, and the P-51 Inglewood Manhattan beach Los Angeles country assassination of Robert F. Kennedy. Los Angeles became the epicenter of this in the 1920's when Joseph Kennedy Sr and (later Admiral) Halsey got some Windsor family bastard children out of wedlock, into orphanages and preschools in the USA where under hidden identities these children were examined at early ages for signs of the London FOXP2 gene that runs in some well connected elite families including the Kennedy Family (including Rosemary) Rockefeller family, and my own the Donegan family through GLorian and I Edward Paul Donegan express the gene.

James Paul Donegan was born in Dorchester Massachusetts a Roman Catholic. He met Glorian Donegan and married her in 1952. He joined the US Army Air Force and may have been a test pilot for the P-51 at Inglewood and certainly flew it in WWII over Europe as a RECON Pilot and later took part in the first and second atomic bombing of Japan. As part of that he watched the Los Alamos New Mexico test blast from a nearby tower. Following WWII he flew in the Korean war from ATUSGI and later for TWA where he seemed to know Barry Seal and "Florence" from accounting.

Like St John Hunt son of E. Howard Hunt I am telling the story of the Bush Family Treason and CIA downing of airplanes (such as UAL 533) that cover up the Ford Nixon Bush Rockefeller ties into the assassination of JFK and RFK and others by the CIA.

When Jim (my father) met Glorian (my mother) did it have anything to do with DNA? Yes and I was born in 1961 the year the Nobel Prize was given to DNA researchers basing their work on Slide 51.

Jim Donegan in the 1950's was part of ***Mutagenic studies***, his DNA part of atomic test blast and being airborne over Nagasaki and Hiroshima. Glorian was a bastard child of some Windsor family member or another (Edward or Albert) in a line like that the FOXP2 gene runs in that is very similar to ADHD and Dyslexia that responds to amphetamine treatments. Her secret connections to public figures who wanted to hide they had defects made her a good choice as an egg donor IF they wished (and they did) to study their offspring from generation to generation as ***Eugenics studies***. So Mr Mutagenic meets Mrs Eugenics. And Dr Sidey Gotlieb and the CIA and Donald Barr were interested.

The formation of the Marshall Plan was to overthrow soverign nations with elite Robber-Barron families and companies and other CIA front companies or organizations as cold war rather than nuclear war fighting. The V2 made the world too small and more "living space" around first world nations was being sought.

The post WWII Marshall Plan, the National Security Act and the unconditional surrender of Japan made it the forward CIA base of operations as the Cold War broke out. Dorpthy a Treasury Dept employee had escaped China as fell to Communists then worked for W. Averell Harriman. and the CIA where she met E. Howard Hunt.

Secretary of State George Marshall and President Harry Truman

Chapter Four
Paris, 1949
DOROTHY, "AN AMORAL AND DANGEROUS WOMAN": THE MURDER OF E. HOWARD HUNT'S WIFE WATERGATE'S DARKEST SECRET

In 1951 to 1954 and really since 1947 E. Howard Hunt and others were working on CIA overthrows and starting the defense against the USSR. Chauncey Marvin Holt will be part of overthrowing Guatamla with E. Howard Hunt in 1954.

Dorothy Hunt photographed in 1954 the mother of St. John Hunt in Japanese clothing acquired from time in Japan. When we the Donegan family of origin James and Glorian lived in Moraga, California USA my father who had the new construction of the home built to spec included a Japanese Rock Garden that from the study and Tom Donegan's bedroom was part of the view looking at into the Rheem Valley including St. Mary's school. My mother often teased about the Japanese gardern hired for the job who created "the Lock Garden" has he trouble pronouncing the English word.

Born on April Fools Day in 1920 in a small Midwestern town, Dorothy Louise Wetzel would live quite an interesting life. As a child growing up in Dayton Ohio she had no way of knowing that she would one day become a threat to the most powerful man in the world; the President of the United States of America, Richard Milhous Nixon. (By St John Hunt)

In 1952 JFK and Jackie will marry, James and Glorian Donegan will marry, E. Howard Hunt and Dorothy Hunt will marry, I think after living with Prouty and others at the CIA operation in Japan were they were all stationed.

E. Howard Hunt became the OPC Station Chief in Mexico City in 1950, and recruited and supervised William F. Buckley Jr., who worked under Hunt in his OPC Station in Mexico during the period 1951-1952. Buckley and Hunt remained lifelong friends, and Buckley became godfather to Hunt's first three children. - Wikipedia

The Office of Policy Coordination (OPC) was the covert operation wing of the United States Central Intelligence Agency (CIA). Created as a department of the CIA in 1948, it actually operated independently until October 1950. OPC existed until 1 August 1952, when it was merged with the Office of Special Operations (OSO run by Prouty along with General Edward Lansdale) to form the Directorate of Plans (DDP).

Chapter 9 of book Dorothy: Picture Early 1954: Dorothy and St. John, Washington, D.C. Tokyo, 1954. I (St. John Hunt) was born in March of 1954 and remained nameless for several weeks. My earliest recollections of life are from Japan. I was the first born son and treated as a little god.

…

I assert the Donegan Oswald RECON story is at Atsugi RECON base my father flew out of during the Korean War 1952 and as pursuit pilot chasing bogies from the polar route of RUSSIA.

Col Prouty was close to Buckley and ghost wrote political articles for him.

L. Fletcher Prouty retrieved from Wikipedia and copied or modified to here

L. Fletcher Prouty's U.S. Army portrait.

Prouty served in the predecessor of the Defense Intelligence Agency sitting in the office with Lansdale, went on to create the Defense Intelligence Agency at Robert McNamara's request. in the 1952 range of time E. Howard Hunt, James Donegan (my father) and Prouty were stationed in Japan as a CIA operation with the USAF formly the US Army Air Force.

Post WII service

After the war, Prouty accepted an assignment from the U.S. Army in September 1945 to inaugurate the ROTC program at Yale University, where he also taught during each scholastic year from 1946 to 1948. This timeline intersects with the years that George Bush and William F. Buckley, Jr. also spent at Yale. Prouty fondly recalled Buckley at that time in his role as editor of the Yale Daily News, and Prouty later told an interviewer in 1989 that he had written for Buckley on several occasions.

In 1950 he transferred to Colorado Springs to build Air Defense Command.

Important: From 1952 to 1954 he was assigned to Korean War duties in Japan, where he served as Military Manager for Tokyo International Airport (Haneda) during the post-war U.S. occupation. Later in Marshfiild Massachustetes the Donegan family and Prouty family would be freidns and I Edward Paul Donegan remember him.

In 1955 he was assigned to the coordination of operations between the fledgling U.S. Air Force and the CIA. As a result of a CIA commendation for this work he was awarded the Legion of Merit by the U.S. Air Force, promoted to colonel, and assigned to the Office of the Secretary of Defense.[citation needed]

Following the creation of the Defense Intelligence Agency and termination of the OSO [predecessor to the DIA Prouty was assigned to create the Defense Intelligence Agency] by Secretary Robert McNamara, Prouty was transferred to the Office of the Joint Chiefs of Staff and charged with the creation a similar organization (that being the Defense Intelligence Agency on a global scale (that would study world regimes and plan overthrows of potentially problematic nations.)

The Kennedy Administration plan was to create a military run operation that not only paralleled but took over formerly CIA operations. Lansdale though was a CIA flunky tied to General CD Jackson and others of the CIA. Coordination with the CIA would always occur but the DIA was huge in comparison to the CIA and JM Wave with Robert Kennedy in charge “augmented” the formerly independent CIA control of cover operations.

The Fouth Force by Prouty

In the War Plans game the CIA is scheduled to play the actual role of the Fourth Force -- the name given to it by the Pentagon. The CIA Fourth Force would serve under the Supreme Allied Command. The Army, Navy, and Air Force would have paramount roles in time of all-out war. Then the CIA, the Fourth Force, would go into action. This Fourth Force was not an intelligence force; the military, even before the days of the Defense Intelligence Agency, which was created in 1961, was extremely jealous of its own intelligence capability and did not want any CIA meddling. But it readily accepted the CIA as the Fourth Force in a paramilitary sense, for duty during wartime.

The CIA, under Allen Dulles, put exceptionally able operatives into each military headquarters. The over-worked planning staffs found these extra hands ready and eager to help with any odd task. Such offices as Subsidiary Plans, Special Operations, Psychological Warfare, and Unconventional Warfare began to spring up and they were all loaded with "helpful" CIA men.

President Eisenhower continued the policy. One of the old Clandestine Operations documents known as NSCID 10/2 was updated to NSC 5412/2 and it set forth limitations concerning the role the CIA could play in clandestine operations. In the margin of one of the master copies of NSC 5412/2 Eisenhower had noted in his own handwriting that nothing was to be given to the CIA that would enable it to create a force that would permit it to operate over any lengthy period of time, or to be able to operate in such a manner that the operation would not remain "covert." In other words, clandestine operations were to be small and "one time" -- so said Eisenhower.

But the CIA was gathering power as the Fourth Force. It began in Europe, where military maneuvers were to be held in Germany. All the armed forces, including the Fourth Force, were to take part. Each service had its own equipment, established by the War Plan.

As the exercise took shape and the military forces began to prepare for their roles, the CIA asked for weapons, trucks, radios, jeeps, and other items it would need to "play" Fourth Force. This was a problem. The military couldn't fund the CIA and the CIA could not go to Congress itself and ask for military equipment on a permanent basis. The military forces came up with a solution. The Army, Navy, and Air Force all created "phony" CIA cover units. Then they let the CIA "equip" these units according to the War Plan and in time the CIA acquired a huge stockpile of military equipment, even aircraft, ostensibly for its formal Fourth Force mission.

…

How a country treats its dissidents including here in the USA and including those who are witnesses against the "official" accounts of the JFK assassination is what I am writing about and why my life and other lives have been endangered or lost to covert activities.

Jen Moore a mocked Conspiracy Theorist who was telling the Donegan family story (and I am the last living person of that family-of-origin or descendant from it) and how it related to the CIA and the Allen Dulles assassination of JFK is the story I am telling and may just be lost to history if I can not get this message across.

Jen Moore's tale was also told by Ted Gunderson who I believe along with Jen Moore and many others (JFK, RFK, Sonny Bono, Marilyn Monroe, maybe Clark Gable, Malcolm X (of Nebraska,) and Dr Martin Luther King and Andrew Breitbart and Micheal Hastings) were assassinated over and are connected to the cult compound of Julian Assange.

Jen Moore will talk about personality research being conducted across generations of families and how this was a factor in the child abuse scandal of Franklin Nebraska there was Conspiracy of Silence over.

Conspiracy of Silence" is a powerful, disturbing documentary revealing a nationwide child abuse and pedophilia ring that leads to the highest levels of government. Featuring intrepid investigator John DeCamp, a highly decorated Vietnam war veteran and 16-year Nebraska state senator, "Conspiracy of Silence" reveals how rogue elements at all levels of government have been involved in systematic child abuse and pedophilia to feed the base desires of key politicians. -Jimensue

Ted Gunderson wrote the introduction to the published work of the Nebraska Leadership Conference that used William Colby of the CIA to investigate the Whitehouse and CIA involvement. Not only was Colby former CIA so was John DeCamp each of whom might have known my family.

Cardoricrash.jpg is a news clipping image of the invstigator.

Gary Caradori was an independent researcher hired to investigate the Franklin child prostitution ring. As former law enforcement, a trained investigator and interviewer he had sufficient credibility to be employed by the Nebraska legislature.

He interviewed a number of victims and obtained such damning evidence that on 10 July 1990 - foreshadowing a boast made two decades later by Sunny Sheu - Caradori called his boss, Nebraska State Senator Loran Schmit, to inform him that they now had the subjects of their investigation "by the short hairs." The next morning he died in a small plane crash. Although his other personal effects were recovered, the briefcase of evidence was somehow lost. - Wikipedia

William Colby life-long CIA operative asset and expert had warned all parties they might be assassinated if they dug too deep, the CIA had real fears about what would be found at at these sites. Gary Caradori was returning from Vatican officials in Chicago and I Believe the there was a Chicago element to the the Obama story tied into the long running CIA Famiy Jewels program of interconnected assets around the world in a focused CIA plan.

Mystery: By 1990, 41 year old Gary Caradori was known mostly as a private investigator, but also as an excellent pilot in his spare time. Gary was a devoted husband to his wife Sandie and father to their son Andrew nicknamed AJ.

On July 10, 1990, Gary flew with 8 year old AJ on a private plane, he was piloting, to the Chicago area to watch the national All Star Baseball game... and hours later Gary and AJ took flight back towards home to Nebraska. At around 2:30 am on the 11th, reports came in that a plane had crashed in a nearby cornfield … and when investigators came across the scene, they determined the passengers were de*d and later learned they were Gary and AJ Caradori. At first, it seemed like a tragic accident … but further looking in, some

investigators believed the plane had possibly been tampered with, and that it may have broken apart mid flight.

This was further believed after investigators learned that Gary had been hired to investigate the local Franklin scandal, which was an investigation that looked into prosti****** and a s*x ring possibly involving prominent politicians and businessmen. Gary's family also told local press that the family had been receiving many de*th threats because of Gary's involvement … but even after an investigation, the plane crash was ruled an accident … to the disbelief of many … thoughts? 😳 #90scrimetime #90s #truecrimecommunity #mystery #illinois #suspicious https://www.instagram.com/90scrimetime/

Ted Gunderson and others took the statements from Colby of their lives being at risk very seriously. William Colby was found dead under suspicious circumstances and Ted Gunderson who was working with them on Nebraska and McMartin School asserts the FBI and CIA had poisoned him and Gang Stalked him, firing at his windows threatening his daughter's life, and breaking into his home leading Gunderson to write an article about the CIA and FBI "Techniques used to silence journalists" and made the same assertions Ed Donegan and Jen Moore make of covert smear campaigns, fights with thugs, break-ins, etc.,

William Colby is still easily find-able on YouTube videotaped talking about the Franklin matter and the lethal need the CIA had to cover up the CIA program their.

On January 7, 2003 Ted Gunderson wrote in a display personal certainty the following.

> "If anything happens to me, my family, or my close associates-including my attorney former Nebraska state senator John DeCamp) Susan Ford, or other individuals in my informational network, the names of the leaders the cult/drug network and additional information will be released to the public.
>
> Regarding Mr Colby, he did not drown and he did not commit suicide.-he was murdered shot in the head."

As for the circumstances of Colby's death (and I assert CIA Station Chief Welsh was assassinated too) a well informed expert on a very long string of deaths …

Ted Gunderson was meeting with Robert K. Kennedy when RFK learned JFK had been assassinated. The meeting had been regarding fighting the Mafia.

When he wrote the introduction to the Franklin Nebraska story Gunderson had long been on the case of the McMartin Preschool I had gone to probably starting at one year old and that is when the December 1962 permit request was filed for new construction though it had operated since 1955.

Ted Gunderson had retired from the FBI having been a right hand man to Attorney General Robert F. Kennedy as an Anti Rackets Washing DC FBI operative and later assigned to investigate the deaths of Marilyn Monroe and JFK and others as FBI.

The OSS CIA Propaganda Bio of Glorian Donegan

As with E. Howard Hunt and Dorothy Louise Wetzel the parents of St. John Hunt the parents of Edward Paul Donegan were brought together by the OSS CIA. This family history is secret though because there was a "past" to Glorian Gainey. Nothing that she had done wrong herself but her identity led to a secret of the British Royal family and the some of the covert history of WWI and WWII.

Jen Moroe died asserting a Conspiracy Theory that the woman who lived in the 859. North Randolph 2nd floor apartment in Arlington Virginia USA (or actually had lived along with Edward Donegan myself) had a hidden history tied to Nazis coming into the USA and an NWO cabal based in the Kennedy assassination by Allen Dulles and others were covering up elites and human trafficking and underground railroads dating back to the history of WWI. Jen Moore was correct and I can confirm that and I am now tellingthat same story.

In this image labeled 89 how underground railroad of early 20th Century history was part of

orphaned life of Glorain Gainey my mother.

Art Mirrors Life

Glorian Gainey my mother who was born in North Carolina near Dean Rusk's school Davidson College was (later the Rockefeller Fund manage 1952-1959 then Secretary of State under JFK) was a rescue of what was an out of wedlock mother shame for that era.

Maria Kutschera had TWO family branches. What I call the Step Family Branch was that in 1927 she married widowed Barron Von Trapp and became Barroness Von Trapp. When she did that she owed Franz Kutschera a favor and sang Nazi songs with the Von Trapp children for the next 9 years or so finaly unwilling to do so and fleeing in about 1936 or so.

The paternal branch of the family was her leaving the Convent pregnant in 1926. That was probably a bad fit for the boisterous and flighty nun novice but she was already an orphan and thus Franz Kutschera her deceased father's uncle (and an SS General assassinated by the Poles in WWII in Operation Kutschera) was her guardian. He had arranged her out of wedlock births moved into the USA through Joseph Kennedy Sr. Undersecretary of the Navy FDR, and Admiral Halsey.

Strangely enough this history is told but anonymize in cinema made by Howard Hughes and others and it goes to aviation, the Battle of Britain and how after the fall of Europe to Nazi panzers it was gained back by air superiority.

It is almost certain they met at the Desert Inn in 1951 or 1952 (Jim and Glorian) and I will show some anonmized media.

Some of that story of air power defeating ground forces in WWII in cinema

German tanks were an important part of the Wehrmacht and played a fundamental role during the whole war, and especially in the blitzkrieg battle strategy. In the subsequent more troubled and prolonged campaigns, German tanks proved to be adaptable and efficient adversaries to the Allies. When the Allied forces technically managed to surpass the earlier German tanks in battle, they still had to face the experience and skills of the German tank crews and most powerful and technologically advanced later tanks, such as the Panther, the Tiger I and Tiger II, which had the reputation of being fearsome opponents.

The Wehrmacht were the unified armed forces of Nazi Germany from 1935 to 1945. It consisted of the Heer (army), the Kriegsmarine (navy) and the Luftwaffe (air force).

For those who have the mailer version of this these videos are included

Most of these are bootlegged because they are out of print or posted by those who own the rights and I can not be assured they will be available thus I have made fully credited copies.
